#### **OPPORTUNITIES**

Opportunity **Estimated Savings** Properly size images 11.59s 🗸 2.97s × Serve images in next-gen formats Use HTTP/2 2.22s × Eliminate render-blocking resources 1.67s 🗸 Enable text compression 0.52s 🗸 Reduce unused CSS 0.48s × Preload Largest Contentful Paint image 0.24s V These suggestions can help your page load faster. They don't directly affect the Performance score. DIAGNOSTICS Avoid enormous network payloads — Total size was 15,427 KiB Image elements do not have explicit width and height Page prevented back/forward cache restoration — 4 failure reasons Serve static assets with an efficient cache policy — 1 resource found Minimize main-thread work — 2.3 s Avoid chaining critical requests — 11 chains found Largest Contentful Paint element — 3,240 ms Avoid large layout shifts — 5 elements found Avoid long main-thread tasks — 5 long tasks found 0 Avoid non-composited animations — 3 animated elements found

PASSED AUDITS (22) Show

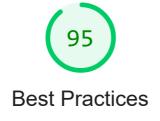

More information about the performance of your application. These numbers don't directly affect the Performance score.

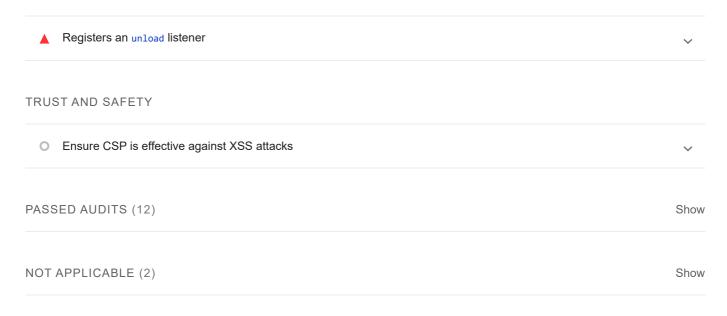

## Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so manual testing is also encouraged.

# CONTRAST Background and foreground colors do not have a sufficient contrast ratio. These are opportunities to improve the legibility of your content. NAMES AND LABELS Form elements do not have associated labels These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader. **NAVIGATION** Heading elements are not in a sequentially-descending order These are opportunities to improve keyboard navigation in your application. ADDITIONAL ITEMS TO MANUALLY CHECK (10) Show These items address areas which an automated testing tool cannot cover. Learn more in our guide on conducting an accessibility review. PASSED AUDITS (16) Show NOT APPLICABLE (41) Show

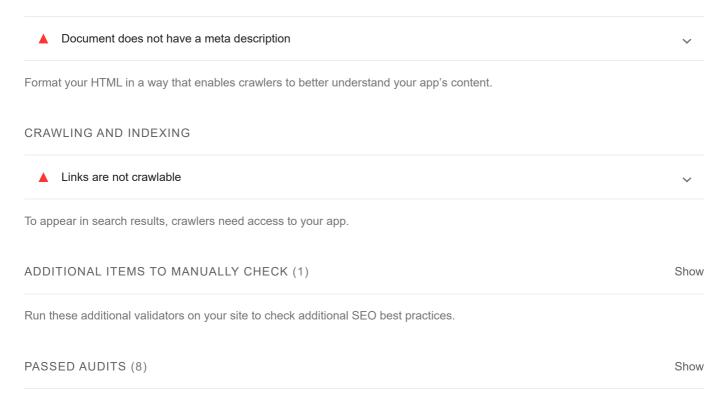

These checks ensure that your page is following basic search engine optimization advice. There are many additional factors Lighthouse does not score here that may affect your search ranking, including performance on <a href="Core Web Vitals">Core Web Vitals</a>.
